A

Abdominal pain
chronic, evaluation with abdominal and pelvic ultrasound — 147
recurrent, causes (editorial) — 369

Acetylsalicylic acid ingestion, maternal, severe intracranial hemorrhage in term neonate associated with — 740

Adenosine, higher doses of, required for supraventricular tachycardia in infants treated with theophylline — 167

Adolescents
anticipatory guidance for: parents' concerns — 542
attitudes of asthmatic and nonasthmatic toward cigarettes and smoking — 642
concerns — 8
costochondritis — 499
early detection of sexually transmitted diseases in pregnant adolescents of low socioeconomic status — 609
female, cardiac tamponade in, and unusual manifestation of systemic lupus erythematosus — 566
sexuality — 658, 725

ALGO-1 screener, for automated newborn hearing testing — 308

Amoxicillin, once-a-day treatment for acute otitis media — 528

Amoxicillin overdose, acute renal failure following — 735

Androgen responsiveness to human chorionic gonadotropin — 329

Anesthesia, epidural outside perioperative period, indications and application of — 81

Angelman syndrome, a cause of pathologic laughter (letter) — 126

Antibiotic dosages for treatment of group A streptococcal infections (letter) — 507

Antipyretics — 66

Arrhythmias, cardiac, in newborn associated with maternal caffeine use during pregnancy — 45

Arthropathy, chronic, induced by parvovirus B19 — 305

Ascorbate, for chronic idiopathic thrombocytopenic purpura — 300

Asthma, childhood, keeping ahead of (editorial) — 97

Attitudes
of asthmatic and nonasthmatic adolescents toward cigarettes and smoking — 642
of physicians toward diagnosis and management of fever in children aged 3 months to 2 years — 66
of Quebec pediatricians toward donor insemination — 226
of physicians toward child care — 718

B

Bacteremia
group B streptococcal — 467
group D streptococcal — 20

Bacterial peritonitis, spontaneous, due to *Neisseria meningitidis* serogroup 2 (letter) — 510

Bacterial infection, serious, protocol for outpatient evaluation of febrile young infants for risk — 401

Battelle Developmental Inventory Screening Test, usefulness of — 273

Behavioral antecedents of pediatric poisonings — 30

Benign paroxysmal torticollis presenting as "seizures" in infancy — 564

Benzocaine, methemoglobinemia due to skin application of — 687

Blastocystis hominis infection, prevalence and characteristics — 91

Blood sampling from an arterial line, contamination errors — 501

Body temperature changes, correlation with infectious outcome and acetaminophen — 343

Bone lesions in Langerhans cell histiocytosis — 118

Botulism, infant — 669

Brainstem encephalitis, Miller Fisher syndrome, mimics brain death — 685

Bronchopulmonary dysplasia
chronic, early transfer to a rehabilitation hospital for infants with — 535
effect of dexamethasone on cellular immunity — 185
financial and emotional cost of — 393

Bronchospasm, exercise-induced, in nonasthmatic obese children — 220

Burn, third-degree, following use of microwave-heated cryogel pack — 191

C

Caffeine use, maternal, during pregnancy, associated with newborn cardiac arrhythmias — 45

Cancer, overall function, social competence, emotional health, in rural survivors — 334

Cardiopulmonary resuscitation, retinal hemorrhages following — 366

Cataract formation, transient, subcapsular in a child with diabetes — 684

Catch-up head growth and motor performance in very-low-birthweight infants — 405

Ceftriaxone therapy, development of pneumococcal meningitis during — 360

Central venous port, totally implantable, technique for placement — 313

Cerebral venous thromboses, multiple, in a child with ulcerative colitis — 169

Cerebral palsy, computerized medical record for clinical management of children with — 567

Cerebrospinal fluid pleocytosis in pneumonia — 372

Chelation therapy, childhood lead poisoning — 284

Chiari type 1 malformation, association with neurofibromatosis type 1 — 189

Child abuse by poisoning — 250

Child care, physicians' attitudes toward and knowledge of — 718

Child health-care systems
A model for the nation — 578
A public/private partnership

providing an integrated system of health care for children: the children's medical services program of Florida — 597
Building a responsible system of care — 607
Children's access to health coverage: the upside-down house — 591
Continuum of care system development — 592
Lessons from health trends for systems of child health care — 586
One parent's perspective — 605
The continuum of care program — 601
The state of the child — 581

Chloral hydrate, evaluation of for pediatric sedation — 632

Chronic abdominal pain, evaluation with abdominal and pelvic ultrasound — 147

Cigarettes and smoking, attitudes of asthmatic and nonasthmatic adolescents toward — 642

Ciprofloxacin, safety of in cystic fibrosis — 504

Circumcision, dorsal penile root anesthesia for (letter) — 127

Clitoral enlargement secondary to neurofibromatosis — 303

Clonidine test for growth hormone reserve, hypoglycemia due to sedation following — 688

Clostridium septicum sepsis and meningitis as a complication of the hemolytic-uremic syndrome — 746

Cocaine
poisoning — 751
risk factor to necrotizing enterocolitis (letter) — 700

Computerized medical record for clinical management of children with cerebral palsy — 567

Congenital hypothyroidism, primary, evolution of height and bone age in — 426

Contamination errors when sampling blood from an arterial line — 501

Contraception in adolescents — 725

Cornfeld, David, M.D., in memoriam — 320

Costochondritis in adolescents — 499

Coxsackie B_1 infection, disseminated, intravenous immunoglobulin in twin neonates for — 561

Crack cocaine, passive inhalation of, followed by pulmonary edema — 105

Crying, infant association with maternal parenting stress — 15

Cystic fibrosis
catheter use after implantation of IV access devices in — 114
safety of ciprofloxacin in — 504
neonatal hyponatremic dehydration as an initial presentation of — 548

D

Death, hospital-based, and permanent disability in school-aged children, pediatrician's role after — 675

Dehydration, neonatal hyponatremia, as an initial presentation of cystic fibrosis — 548

Developmental
disabilities — 492
pediatric perspective of developmental screening in 1993 (editorial) — 209
problems, detection of — 273
screening, use of Developmental Profile-II — 203

Dexamethasone, effect on cellular immunity in infants with bronchopulmonary dysplasia — 185

Diabetes mellitus
insulin-dependent — 258
type I, extreme hyperlipidemia in — 375

Disabilities, developmental — 492

Disability predictors in infants ≤28 weeks' gestation — 521

Donor insemination, Quebec pediatricians' attitudes toward — 226

Dorsal penile root anesthesia for circumcision (letter) — 127

E

Emergency department, routine immunizations in — 161

Endobronchial tuberculosis presenting as respiratory failure in an infant — 748

Enterocolitis, necrotizing, and enteral theophylline in the low-birth-weight infant — 647

Enuresis (special issue)
concomitant nonpharmacologic therapy — 32
desmopressin
American experience — 28
European experience — 19
in adolescents — 25
evaluation of the enuretic child — 14
older pharmacologic therapy for nocturnal — 10
pathophysiology in children and young adults — 5
primary nocturnal — 3
psychosocial implications of — 38

Epidural anesthesia outside the perioperative period, indications and application of — 81

Erythroblastopenia and hyperphosphatasemia, simultaneous — 175

Erythrocyte sedimentation rate — 681

Erythromycin for strep throat — 744

Ethical and quality of life issues in ventilator-dependent children (editorial) — 714

Exercise-induced bronchospasm — 220

F

Facial trauma from a rigid infant pacifier face shield: a patient report and review of pacifier safety — 558

Familial Mediterranean fever, thyroid involvement in — 357

Febrile young children, risk of serious bacterial infection — 401

Feeding premature infants — 36

Ferritin measurements, plasma, comparison of two kits — 190

Fever
attributes of — 142
caused by respiratory syncytial virus — 355

diagnosis and management in children aged 3 months to 2 years, physicians' attitudes toward — 66

Firearms, family experiences, attitudes, and household safety practices regarding — 71

Formulas, whey hydrolysate- and whey-predominant: acceptance and tolerance — 433

G

Gait disturbance, due to pelvic muscle abscess — 298

Gastroesophageal reflux, infant, reliability and validity of questionnaire — 472

Genital ambiguity — 329

Grandparent, reflections of (editorial) — 256

Graves' disease
- maternal, clues to — 121
- neonatal, treatment of with sodium ipodate — 181

Group B streptococcal bacteremia — 467

Group D streptococcal bacteremia — 20

Growth hormone
- effects of, in Prader-Willi syndrome — 292
- effects of, in Prader-Willi syndrome (editorial) — 296
- growth hormone reserve, hypoglycemia due to sedation following clonidine test for — 688

Gustatory flushing syndrome — 629

H

Head growth in very-low-birthweight infants — 405

Hearing testing, automated, newborn — 308

Hemolytic-uremic syndrome, *Clostridium septicum* sepsis and meningitis as a complication of — 746

Hemorrhage, intracranial, severe in a term neonate associated with maternal acetylsalicylic acid ingestion — 740

Henoch-Schönlein purpura followed by Wegener's granulomatosis — 555

Hepatitis B — 445

Hepatotoxicity, propylthiouracil — 25

Histiocytosis, Langerhans cell, bone lesions in — 118

HIV infection in neonates, early detection using rapid serologic testing with immune-complex-dissociated HIV p24 antigen — 756

Homeless children, immunization and iron nutrition status of — 151

Hospital discharge, early, and timing of newborn metabolic screening — 463

Human chorionic gonadotropin, phallic growth after, androgen responsiveness — 329

Hyperbilirubinemia, neonatal nonhemolytic, phototherapy for — 264

Hypercholesterolemia, psychological functioning of children with their families — 135

Hyperlipidemia, extreme, in Type I diabetes mellitus — 375

Hyperphenylalaninemia, benign, from evaporated milk feedings — 124

Hyperphosphatasemia and erythroblastopenia, simultaneous — 175

Hypoglycemia due to sedation following clonidine test for growth hormone reserve — 688

Hyponatremic dehydration, neonatal, as an initial presentation of cystic fibrosis — 548

Hypothyroidism, primary congenital, height and bone age evolution in — 426

Hypothyroxinemia, neonatal, with normal thyrotropin — 121

I

Immune-complex-dissociated HIV p24 antigen in rapid serologic testing for early detection of HIV infection in neonates — 756

Immunization
- inadequate, screening criteria for — 156
- inadequate, identification using clinic charts — 156
- routine, in emergency department — 161
- status in New York City homeless children — 151

Immunoglobulin, intravenous in twin neonates for disseminated Coxsackie B_1 infection — 561

Implantable central venous port, technique for placement — 313

Indomethacin, cation-exchange resin, in management of pseudohypoaldosteronism — 58

Infant crying, association with maternal parenting stress — 15

Insemination, donor, Quebec pediatricians' attitudes toward — 226

Insulin-dependent diabetes mellitus — 258

Intergluteal dorsal dermal sinuses: role of neonatal spinal sonography — 627

Intracranial hemorrhage, severe, in a term neonate associated with maternal acetylsalicylic acid ingestion — 740

Intubation, in Miller Fisher syndrome — 373

Iron nutrition status in New York City homeless children — 151

K

Kawasaki disease
- editorial — 51
- simultaneous group A streptococcal pharyngitis — 48
- simultaneous group A streptococcal pharyngitis (letter) — 510

L

Lactation, improved with metoclopramide — 53

Laparoscopy: pediatric peritoneoscopy — 100

Laughter, pathologic (letter) — 126

Lead poisoning, chelation therapy for — 284

Legally mandated options available to children with ADHD within public education (letter) — 702

Liver, pediatric transplantation — 86

Low-birthweight infant, enteral theophylline and necrotizing enterocolitis in — 647

Lung disease, clinical value screening of chest radiography in neonate — 514

Lymphoma, childhood, preceded by *Pneumocystis carinii* pneumonia (letter) — 126

M

Magnetic resonance imaging, evaluation of cavernous transformation of portal vein — 77

Masturbation in childhood — 238

Measles vaccination (letter) — 509

Meningoencephalitis, posterior fossa tumors presenting as — 552

Metabolic screening, newborn, early hospital discharge and timing of — 463

Methemoglobinemia due to skin application of benzocaine — 687

Methylphenidate protocol: feasibility in a pediatric practice (letter) — 508

Metoclopramide, improved lactation with — 53

Miller Fisher syndrome
- mimics brain death — 685
- requiring intubation — 373

Monozygotic twins, discordant, with markedly different grades of anterior lens capsule vascularity — 248

Morbidity and mortality patterns of ventilator-dependent children in a home care program — 706

Morbidity predictors in infants ≤28 weeks' gestation — 521

Mortality
- patterns of ventilator-dependent children in a home care program — 706
- predictors in infants ≤28 weeks' gestation — 521

Motor performance in very-low-birthweight infants — 405

Munchausen syndrome by proxy, role of male caretaker — 245

Muscle abscess, pelvic — 298

Myositis, relapsing, in a 12-year-old child — 438

N

Nasal foreign bodies, removal of — 192

Neonatal hyponatremic dehydration as an initial presentation of cystic fibrosis — 548

Neonate with lung disease, clinical value of screening chest radiography in — 514

Neurofibromatosis
- clitoral enlargement secondary to — 303
- type 1, association with Chiari type 1 malformation — 189

Neuropsychiatric toxicity of phenytoin — 107

Newborn
- cardiac arrhythmias associated with maternal caffeine use in pregnancy — 45
- footprinting, inaccuracy of — 111
- identification — 111

O

Orchidometer, using Easter candy (letter) — 700

Otitis media
- in practice (letter) — 512
- treatment with once-a-day amoxicillin — 528

Outpatient evaluation of febrile young children for risk of serious bacterial infection — 401

P

Pacifier safety — 558

Parents, difficult, and pediatrician relationships with — 213

Parotitis, recurrent, in childhood (letter) — 127

Parvovirus B19, chronic arthropathy induced by — 305

Pathologic laughter (letter) — 126

Pediatric
- liver transplantation: history, recent innovation, and outlook for the future — 386
- peritoneoscopy — 100
- poisonings, behavioral antecedents of — 30
- residency training (editorial) — 546
- sedation, evaluation of chloral hydrate for — 632

Pediatrician's role after hospital-based death and permanent disability in school-aged children — 675

Peritoneoscopy — 100

Petechiae, caused by respiratory syncytial virus — 355

Phenylalanine, elevated from evaporated milk feedings — 124

Phenylketonuria
- testing, need for — 316
- classic, treatment variables and intellectual outcomes in children with — 417

Phenytoin, neuropsychiatric toxicity of — 107

Pheochromocytoma, perioperative management of (letter) — 507

Phototherapy, neonatal nonhemolytic hyperbilirubinemia for — 264

Physicians' attitudes toward and knowledge of child care — 718

Pilomatrixoma — 749

Pneumococcal meningitis, development of during ceftriaxone therapy — 360

Pneumocystis carinii pneumonia preceding childhood lymphoma (letter) — 126

Pneumonia and cerebrospinal fluid

pleocytosis — 372

Poisoning
behavioral antecedents of — 30
child abuse by — 250
cocaine — 751

Portal vein, cavernous transformation of and evaluation by MRI — 77

Posterior fossa tumors presenting as meningoencephalitis — 552

Prader-Willi syndrome
growth hormone in — 292
effects of growth hormone in (editorial) — 296
tall stature, atypical phenotype in — 179

Predictive value of a diagnostic test, estimating — 485

Predictors of mortality, morbidity, and disability in a cohort of infants ≤28 weeks' gestation — 521

Pregnant adolescents of low socioeconomic status, early detection of sexually transmitted diseases in — 609

Premature infants, feeding of — 36

Prematurity, with congenital syphilitic skeletal manifestations — 312

Propylthiouracil, hepatotoxicity — 25

Pseudohypoaldosteronism, management with indomethacin and cation-exchange resin — 58

Psychological functioning of children with hypercholesterolemia and their families — 135

Pulmonary edema
following passive inhalation of free-base ("crack") cocaine — 105
unilateral — 363

Pyloric stenosis, congenital hypertrophic — 281

R

Radiography
screening chest, clinical value of in neonate with lung disease — 514
to x-ray or not to x-ray? (editorial) — 520

Referrals: comparison of self-referred and physician-referred patients to a pediatric diagnostic center — 412

Renal failure, acute, following amoxicillin overdose — 735

Renal transplantation, cadaver — 194

Residency, pediatric (editorial) — 546

Respiratory failure in an infant, endobronchial tuberculosis presenting as — 748

Respiratory syncytial virus infection
clinical profile of hospitalized patients with — 450
expanded clinical spectrum (editorial) — 463
petechiae, caused by respiratory syncytial virus — 355
severe, atypical extrapulmonary presentations requiring intensive care — 455

Retinal hemorrhages following cardiopulmonary resuscitation — 366

Retropharyngeal abscess, diagnosis with computed tomography — 242

Rett syndrome — 613

S

School-aged children, pediatrician's role after hospital-based death and permanent disability — 675

Screening chest x-ray (editorial) — 520

Sedation, pediatric, evaluation of chloral hydrate for — 632

Sepsis and meningitis, *Clostridium septicum*, as a complication of the hemolytic-uremic syndrome — 746

Serologic testing with immune-complex-dissociated HIV p24 antigen for early detection of HIV infection in neonates — 756

Sexuality adolescent — 658, 725

Sexually transmitted diseases, early detection of in pregnant adolescents of low socioeconomic status — 609

Sickle cell disease in infants and children: erythrocyte sedimentation rate — 681

Single-subject randomized trial for assessing therapeutic efficacy — 654

Smoking: attitudes of asthmatic and nonasthmatic adolescents toward cigarettes — 642

Snakebite, pediatric care after (letter) — 699

Sodium ipodate, treatment of neonatal Graves' disease with — 181

Spinal sonography, neonatal, role in intergluteal dorsal dermal sinuses — 627

Status epilepticus encephalopathy with cat-scratch disease (letter) — 701

Strep throat, erythromycin for — 744

Streptococcal
bacteremia, group B streptococcal — 467
bacteremia, group D — 20
group A streptococcal infections, antibiotic dosages for treatment of (letter) — 507
pharyngitis, group A, and simultaneous Kawasaki disease — 48

Stress, maternal parenting, association with infant crying — 15

Stridor in the newborn, evaluation and management (letter) — 511

Syphilitic skeletal manifestations, congenital in a premature infant — 312

Systemic lupus erythematosus: cardiac tamponade in an adolescent female — 566

T

Tachycardia, supraventricular, in infants treated with theophylline — 167

Tall stature, an atypical phenotype in Prader-Willi syndrome — 179

Tamponade, cardiac, in an adolescent female: an unusual manifestation of systemic lupus erythematosus — 566

Television, caution on commercially prepared material — 172

Temperature
normal, in infants < 3 months — 142
rectal-axillary difference in febrile

and afebrile infants and children — 268

Theophylline, enteral, and necrotizing enterocolitis in the low-birthweight infant — 647

Thermometry, infrared auditory canal accuracy of — 347

Third-degree burn following use of microwave-heated cryogel pack — 191

Thrombocytopenic purpura, chronic idiopathic, ascorbate for — 300

Thrombosis of major vessels in newborns: urokinase therapy — 231

Torticollis, benign paroxysmal, presenting as "seizures" in infancy — 564

Transient subcapsular cataract formation in a child with diabetes — 684

Transplantation, pediatric
heart, heart-lung, lung — 322
islet cells — 258
liver — 386
renal cadaver, risk factors — 194

Tuberculosis, endobronchial, presenting as respiratory failure in an infant — 748

Tumor, childhood, pilomatrixoma — 749

Tympanic thermometry: poor correlations (letter) — 699

U

Ulcerative colitis, multiple cerebral venous thromboses in a child with — 169

Ultrasound
value in diagnosing congenital hypertrophic pyloric stenosis — 281
abdominal and pelvic, in evaluation of chronic abdominal pain — 147

Urinary tract infections and the uncircumcised state — 130

Urine latex particle agglutination testing, false negative, in neonates with group B streptococcal bacteria — 467

Urine collection from disposable diapers, reliability of biochemical analysis in premature infants — 314

Urokinase, high-dose therapy in newborns with major vessel thrombosis — 231

V

Vaccination coverage in the United States, problems with (editorial) — 163

Vaccine efficacy, perceptions of, among inner-city parents — 2

Ventilator-dependent children
morbidity and mortality patterns of, in a home care program — 706
ethical and quality of life issues in (editorial) — 714

Very-low-birthweight infants, catch-up head growth and motor performance in — 405

Video games, impact of — 86

W

Wegener's granulomatosis, Henoch-Schönlein purpura followed by — 555

Whey hydrolysate- and whey-predominant formulas, comparative evaluation of — 433

93
